ArcteonDigital | Empowering Your Digital Transformation Journey

AI Powered Audit Solution

Network Architecture & AI Integration

Client

Auditor / User

Access via secure web browser (PC / laptop / tablet / mobile)

- View audit data
- Run AI analysis
- Chat with AI assistant
- Generate reports
- Track progress

HTTPS (Encrypted)

Arcteon AuditPulse Cloud Server

Web Hosting & Processing

AI-Powered Audit Desktop

- Web application
- User management & access control
- Audit log & system monitoring
- Report generation

Security & Monitoring

- Encrypted data in transit and at rest
- System monitoring & audit log
- No database at cloud server

AI Tools Integration

- **AI Tool** (Data Analysis & Insight)
- **AI Tool** (AI Chatbot)
- **AI Tool** (Automation & Assistance)
- **AI Tool** (RAG - Knowledge Retrieval)
- **AI Tool** (Workflow Automation)
- **AI Tool** (OCR & Document)

Secure One-Way Network Flow

Secure autowork connection from Local Server to Cloud Server (for data backup / processing)

Local Server

Data Backup

- **Local Database** (backup only)
- **File Storage** (backup only)
- **Backup & Recovery**

Data Protection

- Encrypted data storage
- Access control & firewall protection
- Local backup for business continuity

How It Works

1. **Client Access**
   Users access the AI-powered audit desktop via a secure web browser on their devices (PC / laptop / tablet / mobile) within the client's network.
2. **Data Processing in Cloud**
   The cloud server hosts the web application. AI processing engine, database and report generation. It processes the audit data and processes the AI-powered insights and reports.
3. **Secure One-Way Flow**
   Only one network flow is allowed from the Local Server to the Cloud Server for data backup and processing. No inbound connection from the internet, ensuring higher security and reduced risk.
4. **Local Data Backup**
   The local server keeps a copy of the audit database and files for recovery and business continuity.
5. **Result**
   Clients can securely access, analyse and generate audit reports with AI. AI assistance — anytime, anywhere, with peace of mind.

Key Benefits for Your Organisation

Stronger Security | Reliable Backup | AI-Powered Insights | Higher Efficiency | Better Compliance
