1. Introduction

Overview of the WorkVibes system and this guide

WorkVibes is an employee management system that helps organizations manage day-to-day employee and HR activities in one centralized platform. The system includes features for attendance, employee information, leave, expenses, payslips, departments, teams, notifications, and organizational settings.

This guide provides a simple overview of the main functions available to administrators and employees. It is intended to help first-time users understand what each page is used for and the basic actions available on the screen.

User Roles

Role	Main Access
Administrator	Manage company information, employees, attendance, timesheets, payslips, departments, teams, designations, notifications, expense settings, and leave settings.
Employee	View personal dashboard and attendance, apply for leave and expenses, read notifications, access payslips, and review profile information.

Guide Structure

- Section 2: Login and password reset.
- Part A: Administrator functions.
- Part B: Employee functions.
- Final section: Basic usage notes and conclusion.

Note: The exact options shown may depend on the user account and access level assigned by the organization.

2. Login

The Login page is used by registered users to access WorkVibes using their email address and password.

1. Enter your registered email address.
2. Enter your password.
3. Click Log In to continue to the system.

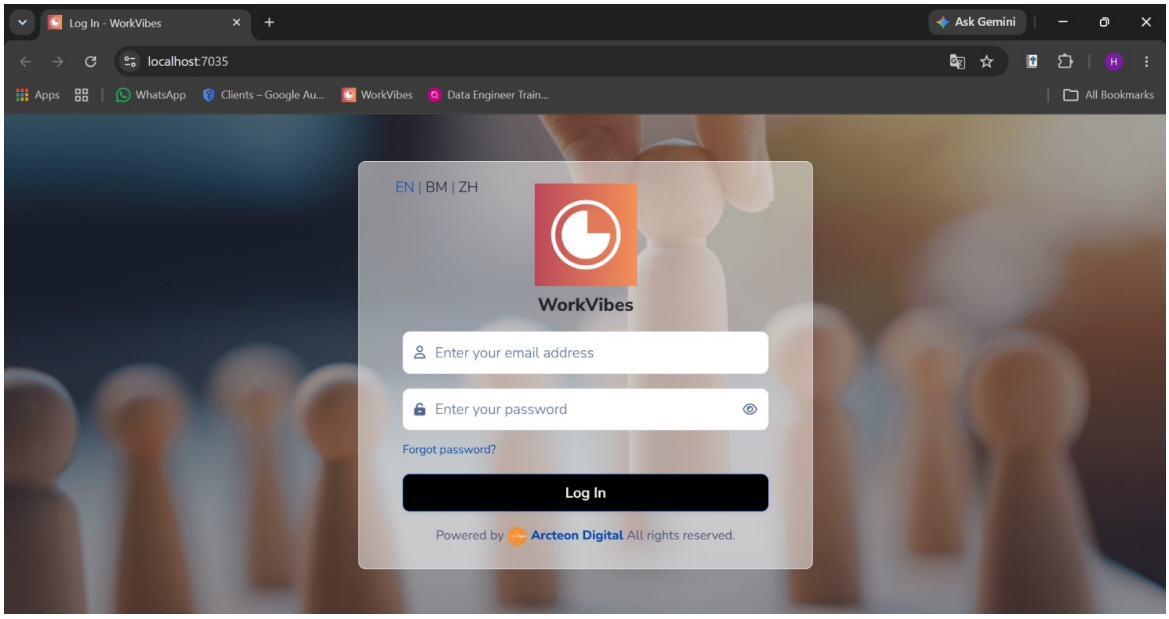

Figure 1. WorkVibes Login Page

3. Forgot Password

If you cannot remember your password, use the password reset option from the login screen.

1. Click Forgot password? on the Login page.
2. Enter the registered email address.
3. Click Reset Password. Password reset instructions will be sent to the user's registered email address.

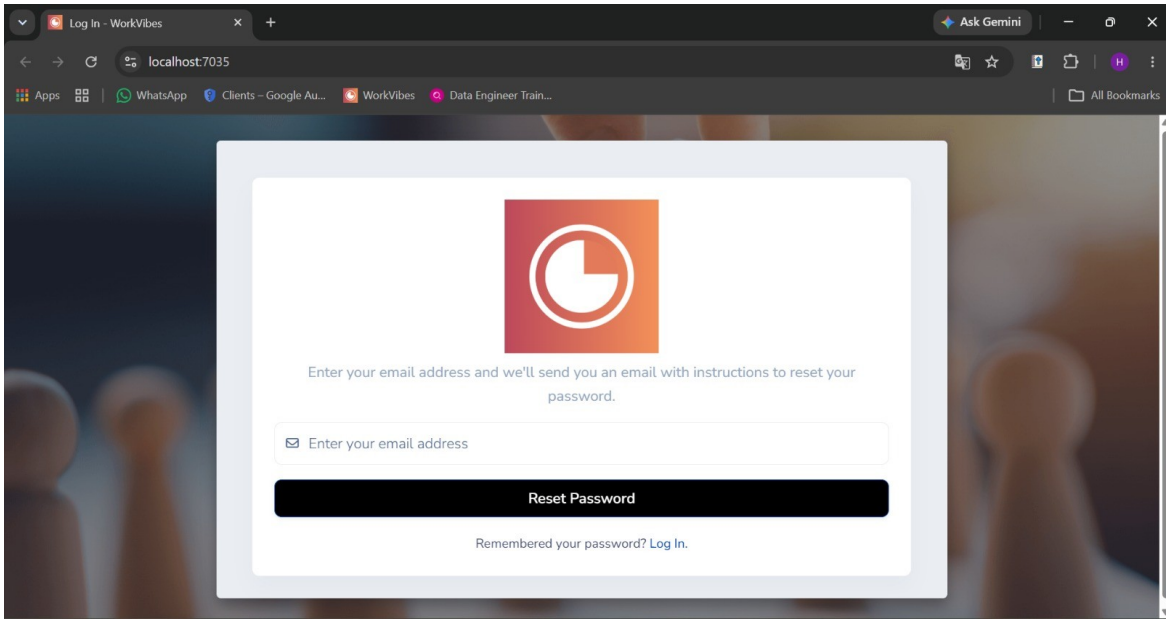

Figure 2. Reset Password Page

PART A - ADMINISTRATOR GUIDE

Functions available for company or administrator accounts

4. Admin Dashboard

The Dashboard gives administrators a quick overview of the current workforce status. It shows summary cards for total employees, employees present, employees absent, and employees on leave, together with attendance information.

- Use the dashboard for a quick daily overview.
- Review attendance statistics and absence information from one page.

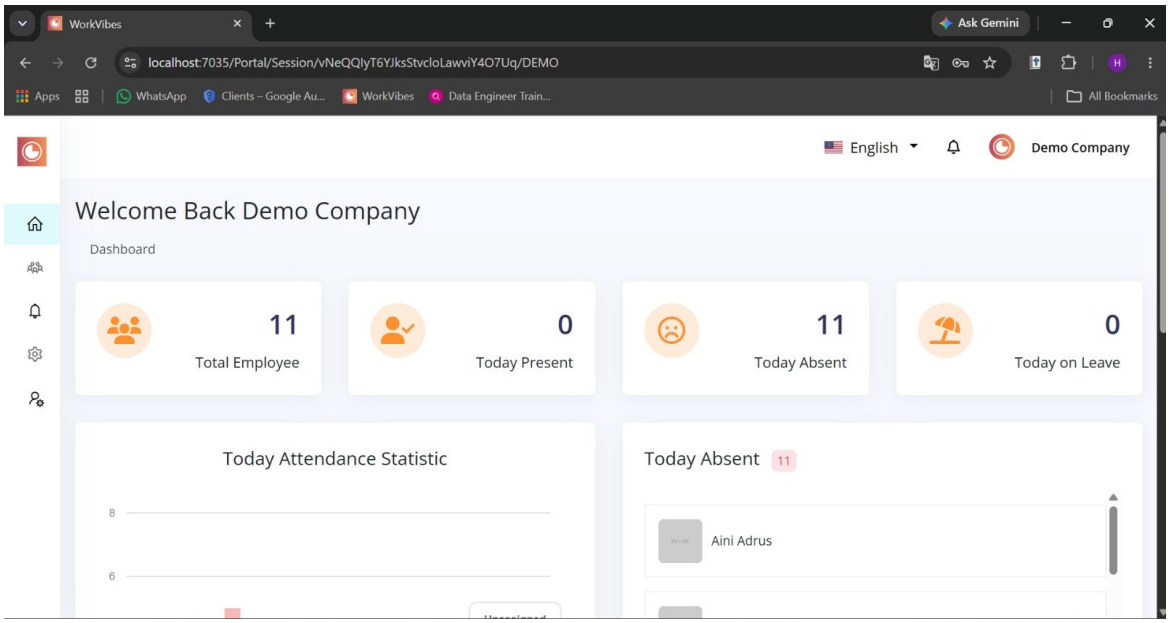

Figure 3. Administrator Dashboard

5. Timesheet Report

The Timesheet Report allows administrators to review employee working-hour records. Filters are available for employee, department, period, and month.

- Select the required filters to narrow the report.
- Use Export PDF or Export Excel when a downloadable report is needed.

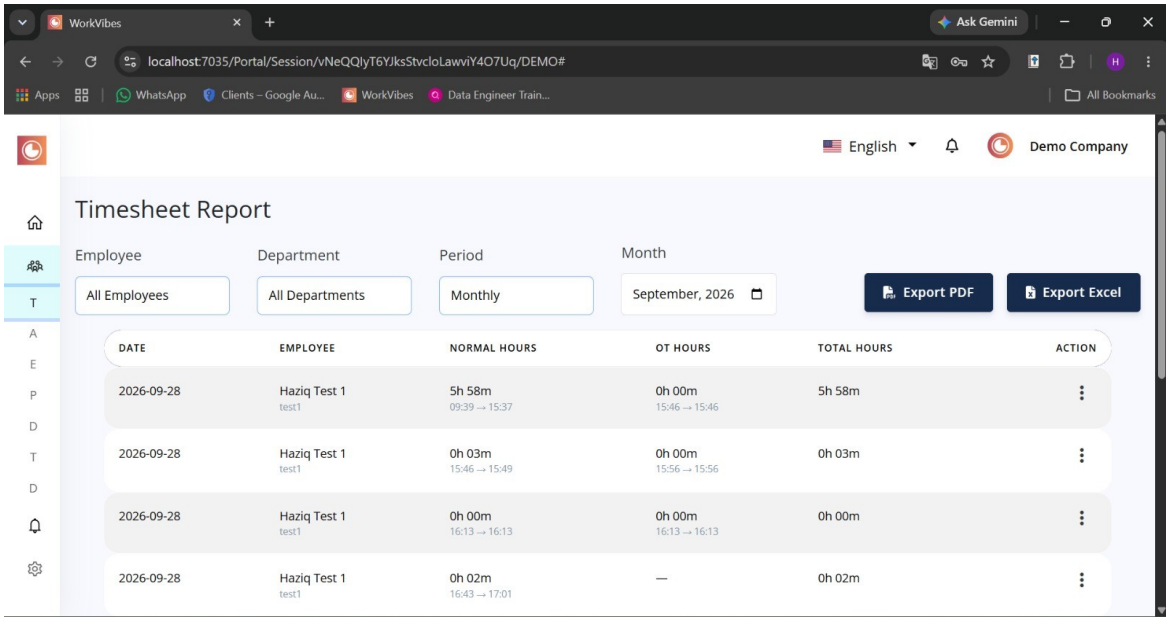

Figure 4. Timesheet Report

6. Attendance

The Attendance page displays employee attendance records by date. Administrators can search for employees and select the required month and year before reviewing the attendance table.

- Use Search to locate a specific employee.
- Select the month and year to view the required attendance period.
- Click the icon on the right side of an attendance row to view the attendance details.

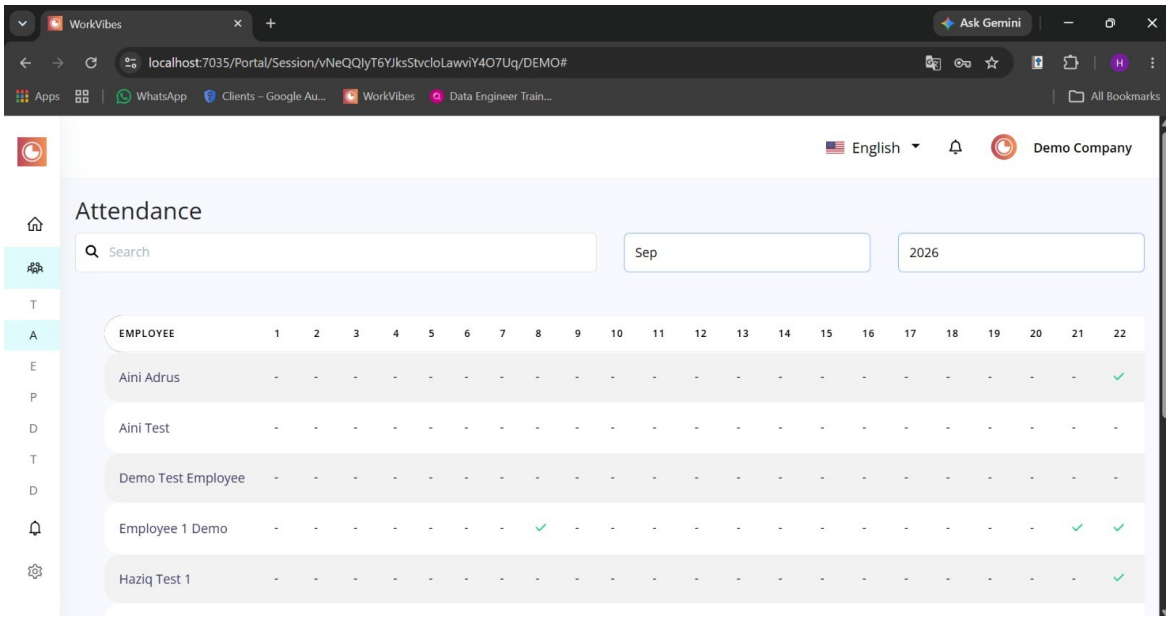

Figure 5. Administrator Attendance Page

7. Employee List

The Employee List contains registered employee information such as employee ID, name, email, mobile number, designation, and employment type.

- Use Search or the department filter to locate employees.
- Click + Add Employee to begin registering a new employee.
- Click the three-dot menu on the right side of an employee row and select Edit to update the employee information.

Note: The screenshots provided do not show how login credentials are delivered to a newly registered employee. Follow the organization's configured onboarding process for account access.

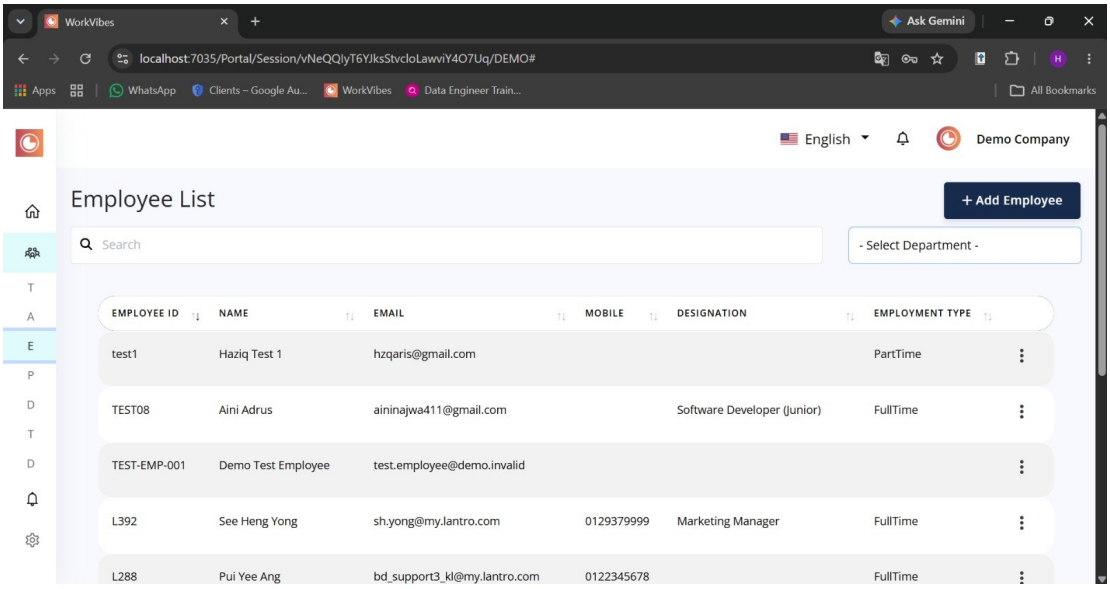

Figure 6. Employee List

7.1 Add Employee

The Add Employee form allows administrators to register a new staff member and enter the employee information required by the organization.

- From the Employee List, click + Add Employee to open the registration form.
- Complete the relevant information tabs. Fields marked with a red asterisk (*) are required.
- Use the tabs for Basic Info, Employee Info, Contact Info, Family Info, Education Background, Employment Background, Approval Matrix, and Document details.
- Click Save to create the employee record, or Close to exit the form.

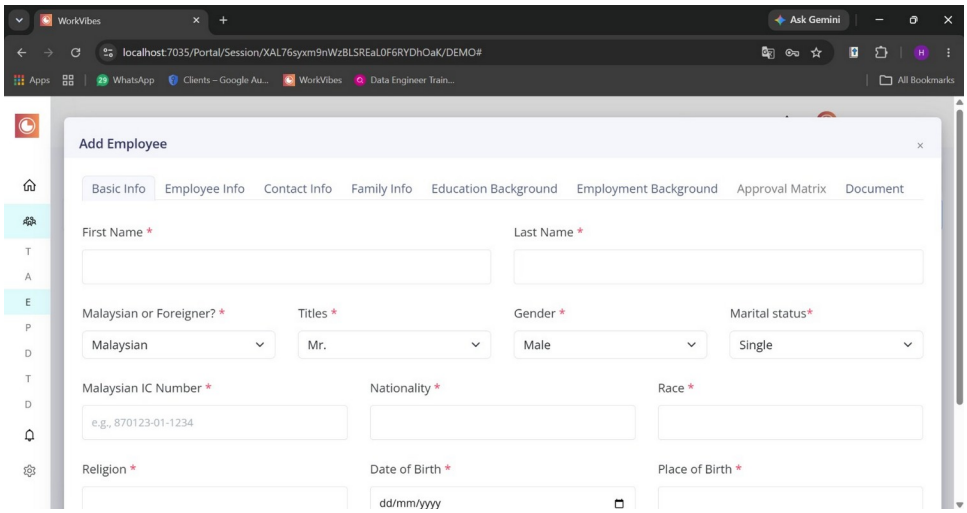

Figure 6A. Add Employee Form - Information Tabs

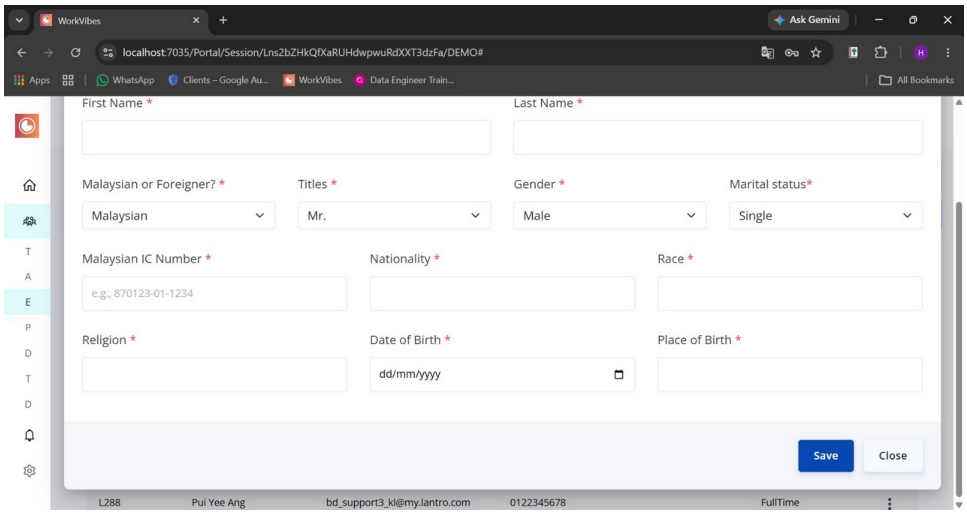

Figure 6B. Add Employee Form - Save Action

8. Payslip Management

The Payslip page is used to manage employee payslip records. The list shows information such as employee ID, payment type, pay date, and attachment.

- Use the available filters or search field to locate a payslip.
- Click + Add Payslip to begin adding a new payslip record.
- Use the action menu to access available options for an existing record.

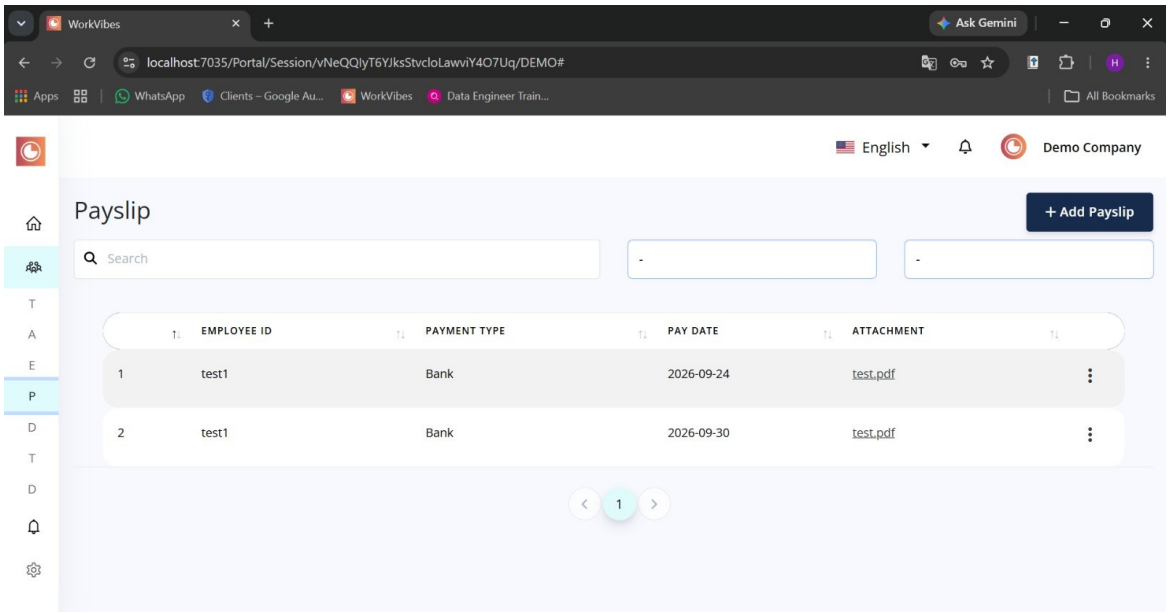

Figure 7. Administrator Payslip Page

9. Department

The Department page lists the departments created in the organization. It helps administrators organize company structure and related employee information.

- Click + Add Department to create a new department.
- Use the action menu to access available actions for an existing department.

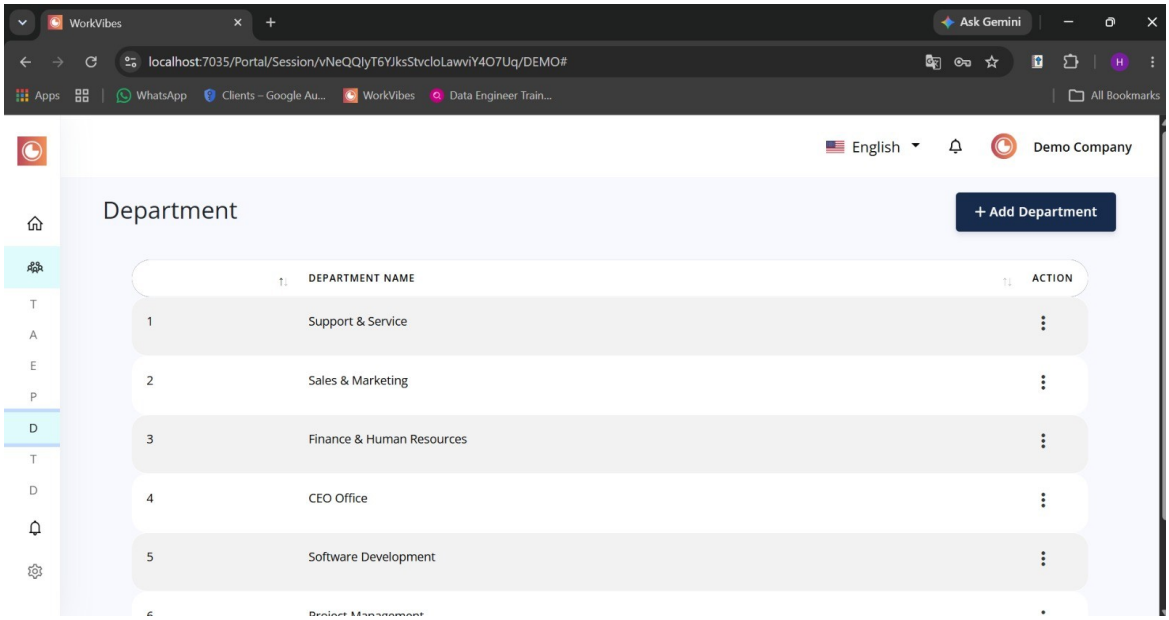

Figure 8. Department Page

10. Team

The Team page lists teams and the departments associated with them. This helps administrators organize employees according to the organization structure.

- Click + Add Team to create a new team.
- Use the action menu to manage an existing team.

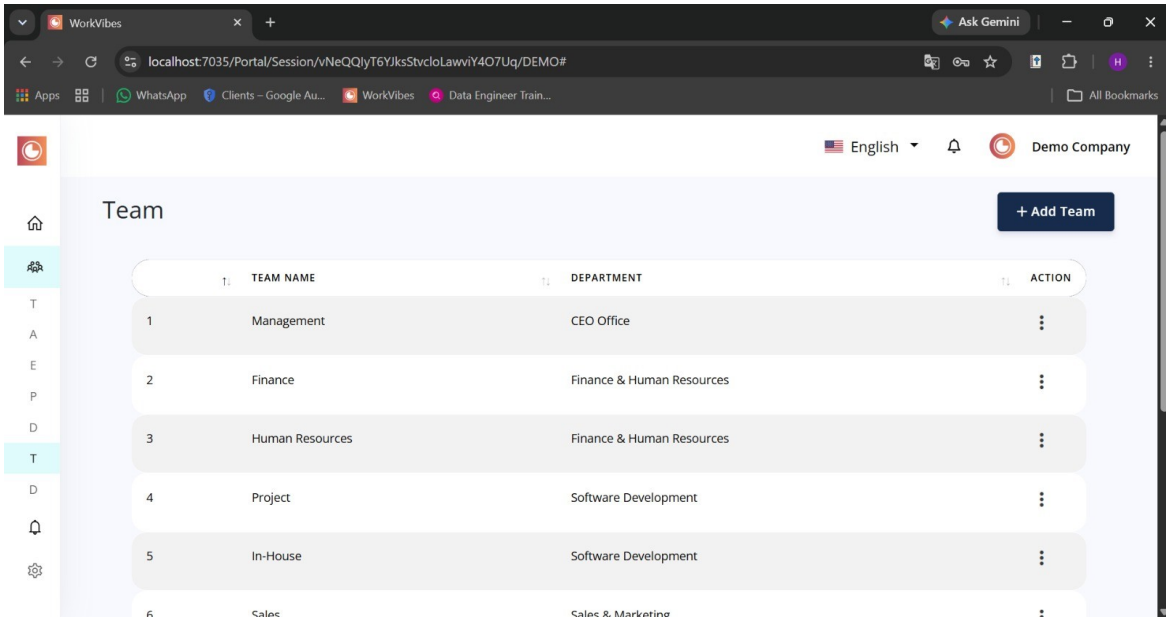

Figure 9. Team Page

11. Designations

The Designations page contains job positions used in the organization and shows the related team and department for each designation.

- Click + Add Designation to create a new job designation.
- Use the action menu for available management options.

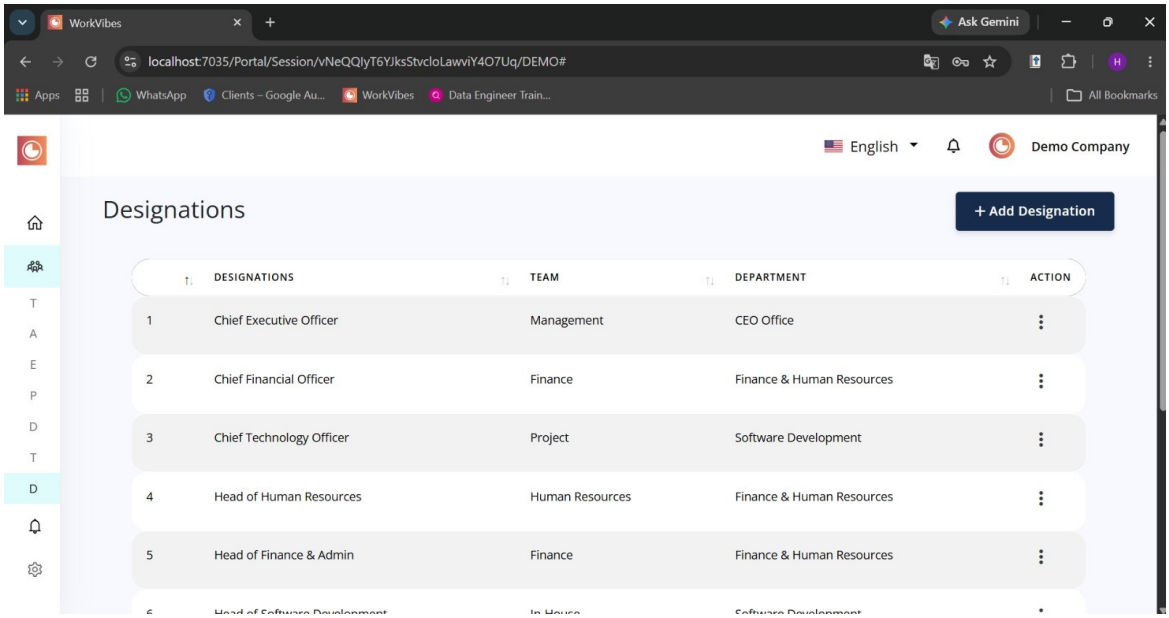

Figure 10. Designations Page

12. Notification

The Notification page allows administrators to manage announcements or messages. Existing notifications display the posting date, sender, title, and target group.

- Use the search and filter fields to find an existing notification.
- Click + Publish New Notification to begin creating a new notification.

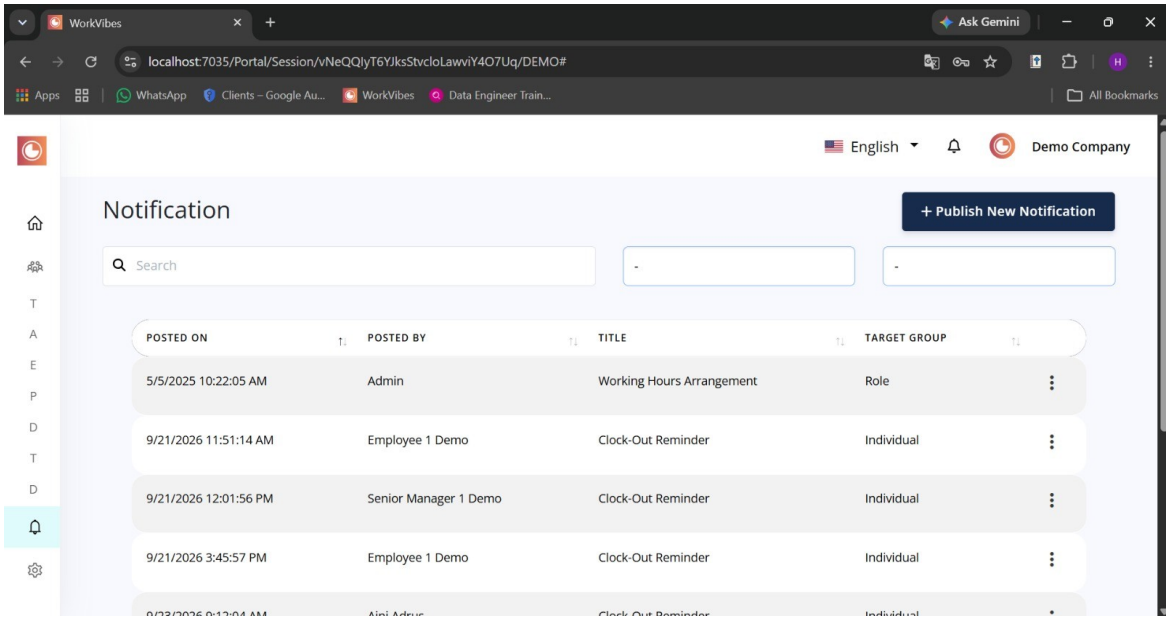

Figure 11. Administrator Notification Page

13. Expense Settings - Approval Matrix

The Approval Matrix section is used to configure how expense reports are approved. Administrators can choose an approval level and assign the appropriate approver.

1. Select the approval level.
2. Select the required approver.
3. Click Save Settings to save the configuration.

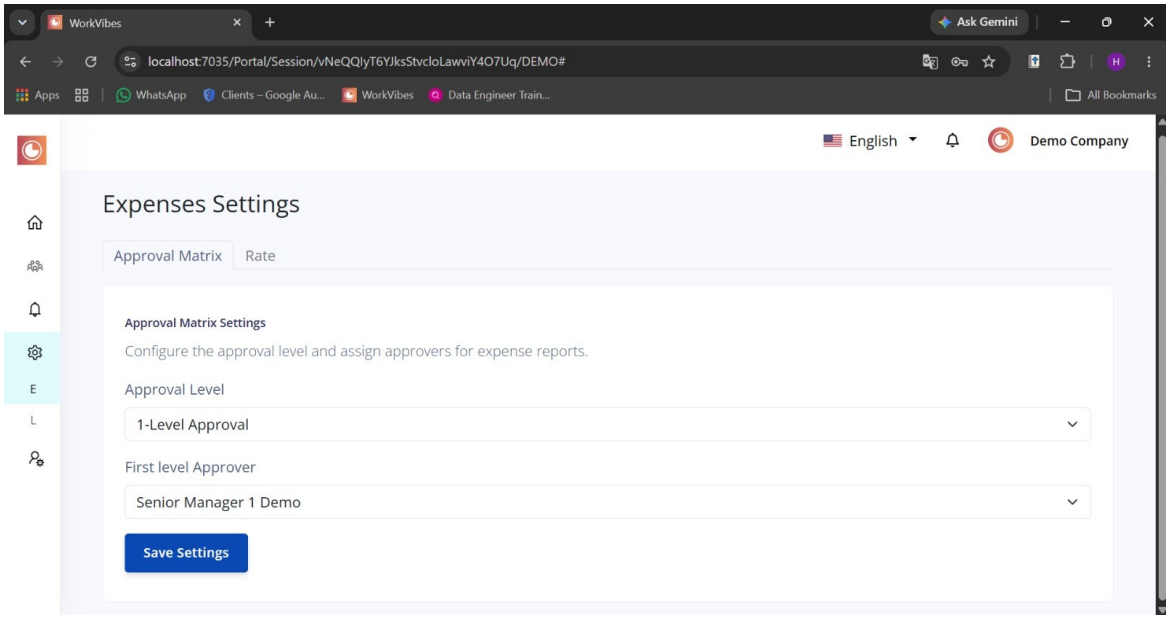

Figure 12. Expense Settings - Approval Matrix

14. Expense Settings - Rate

The Rate Settings section is used to configure mileage claim rates. The page shows separate rate fields for car and motorcycle expenses.

1. Enter the required car expense rate.
2. Enter the required motorcycle expense rate.
3. Click Save Rates to save the values.

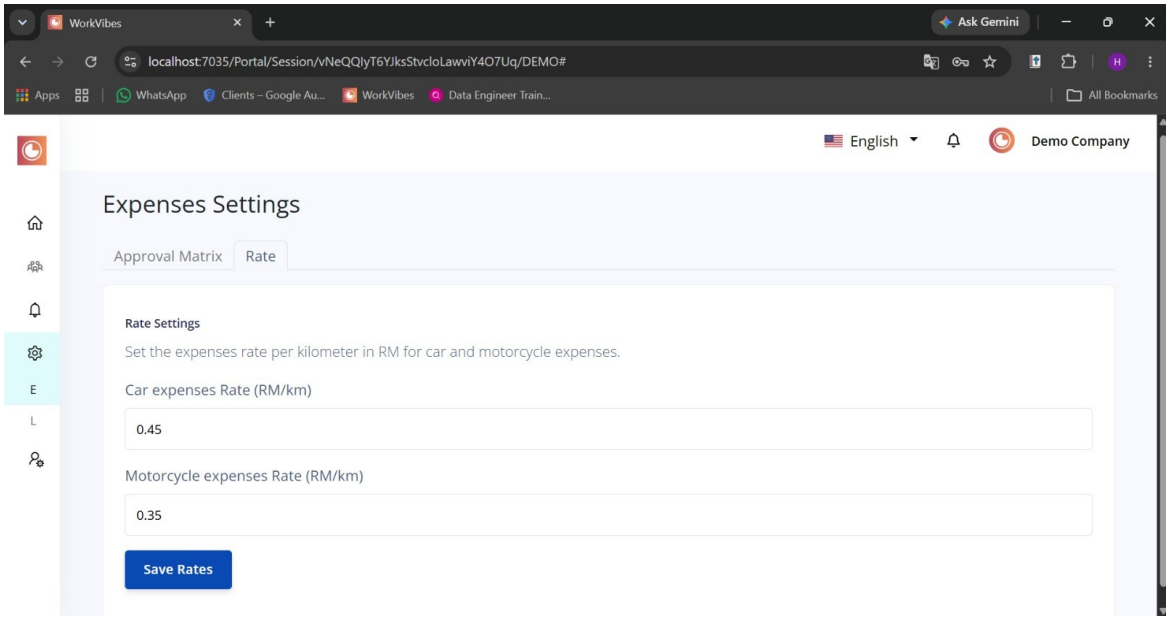

Figure 13. Expense Settings - Rate

15. Leave Settings

The Leave Settings page lists the leave types configured in the system together with their balance days. Examples shown include medical leave, annual leave, emergency leave, unpaid leave, and day-off leave.

- Click + Add Leave Type to create a new leave category.
- Use the action menu for available actions on an existing leave type.

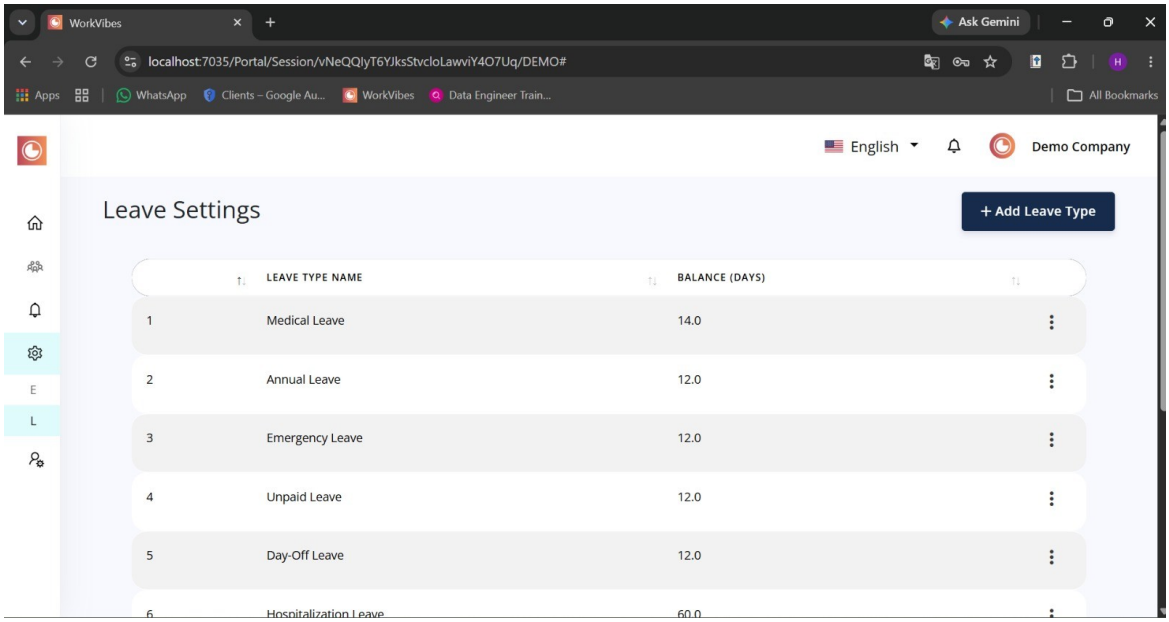

Figure 14. Leave Settings Page

16. Company Profile

The Company Profile page displays the organization information registered in WorkVibes, such as company name, registration number, phone number, email, and address.

- Review the company information displayed on the page.
- Use the edit option shown on the profile card when an update is required and the account has permission to edit.

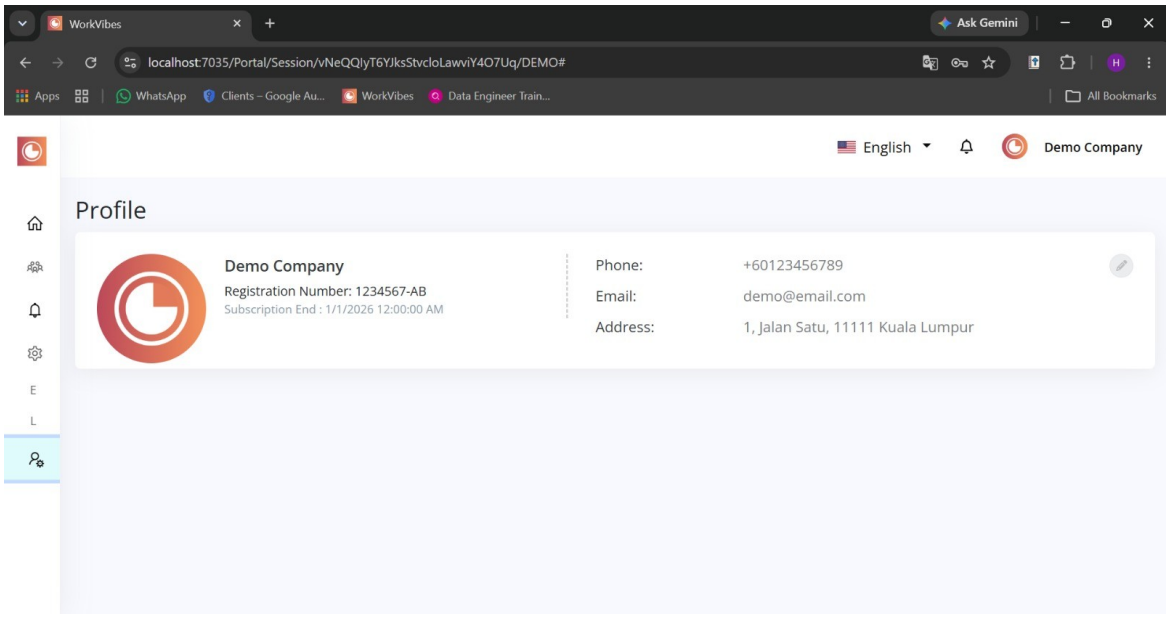

Figure 15. Company Profile Page

PART B - EMPLOYEE GUIDE

Functions available for employee accounts

17. Employee Dashboard

The dashboard shows your work time, remaining time and total break today, alongside summaries for attendance, leave and expenses.

- Use the clock button to record the start or end of work. Clock Out appears when you are already clocked in.
- Use View Profile, View Attendance, View Leave or View Expenses to open the corresponding page.

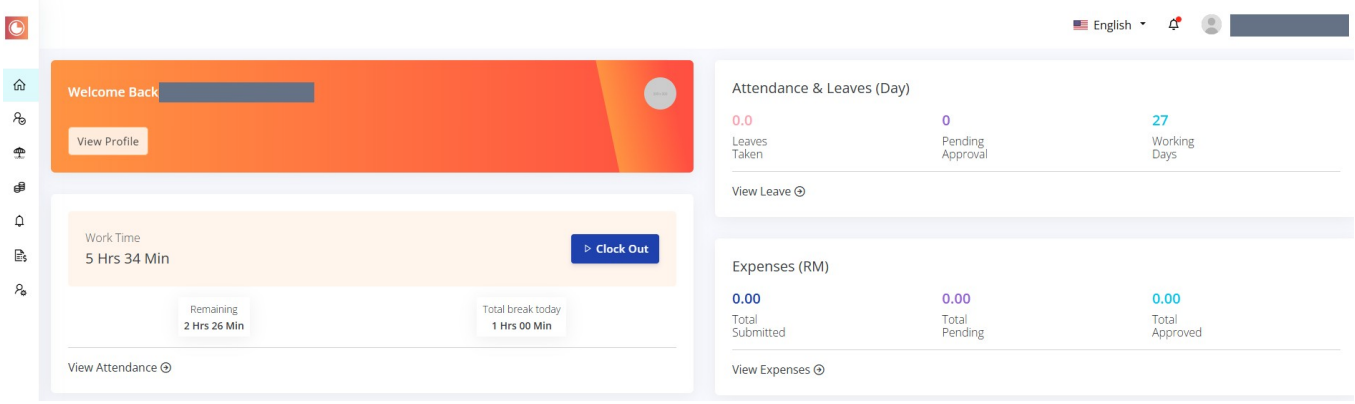

Figure 16. Employee dashboard

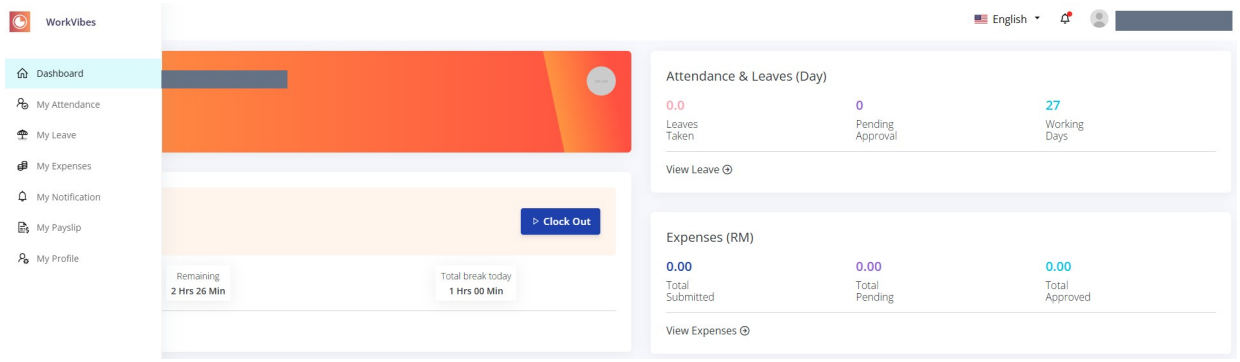

Figure 16A. Expanded navigation menu

Dashboard Controls

- Open the language menu in the top bar and select English, Bahasa Melayu or 中文.
- Click the notification bell to preview recent alerts. Select View all for the full notification page.
- Click your name or avatar to open My Profile or choose Log Out.

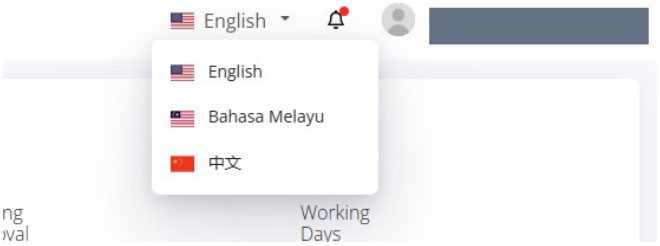

Figure 16B. Language menu

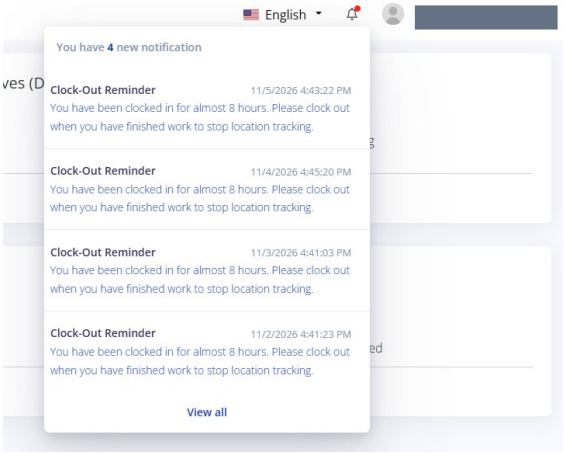

Figure 16C. Notification preview

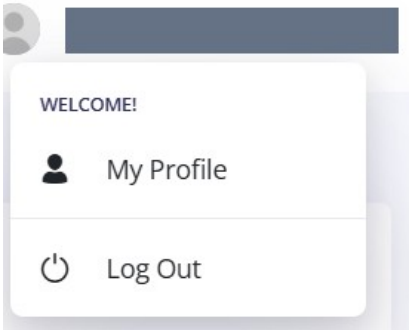

Figure 16D. Account menu

18. Employee Attendance

Open My Attendance from the sidebar. The page shows your daily clock and break activity, plus weekly and monthly working-hour statistics.

- Scroll down to view attendance history. Use Search and the available filters to find a record.
- Check the Normal Hours, Overtime, Total Break Today and Total Hours columns for each date.

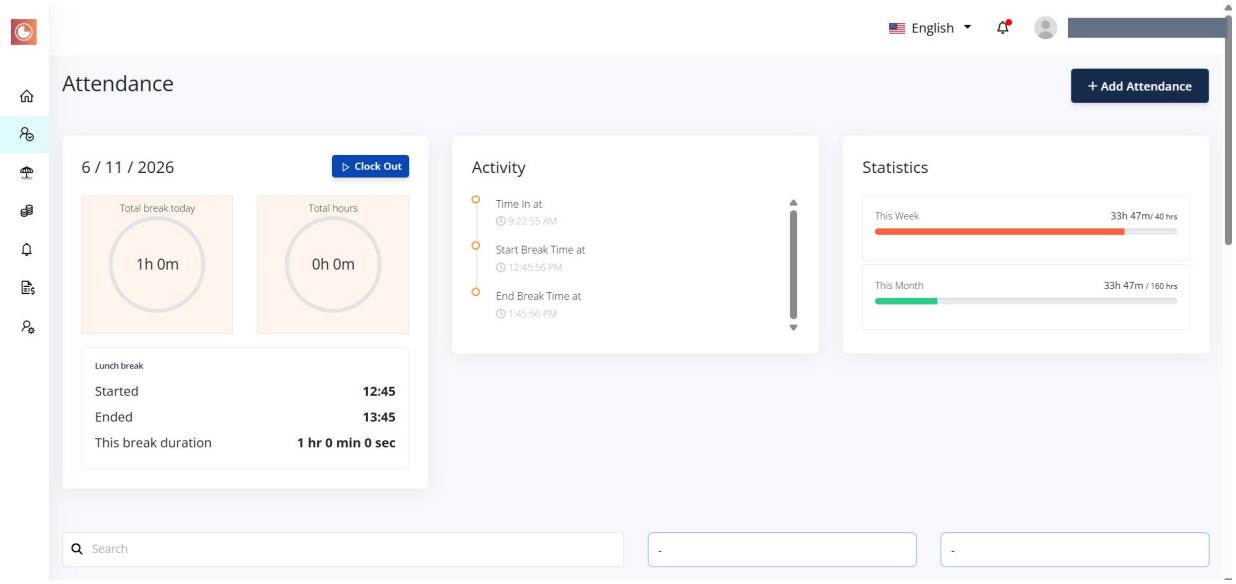

Figure 17. Daily attendance, activity and statistics

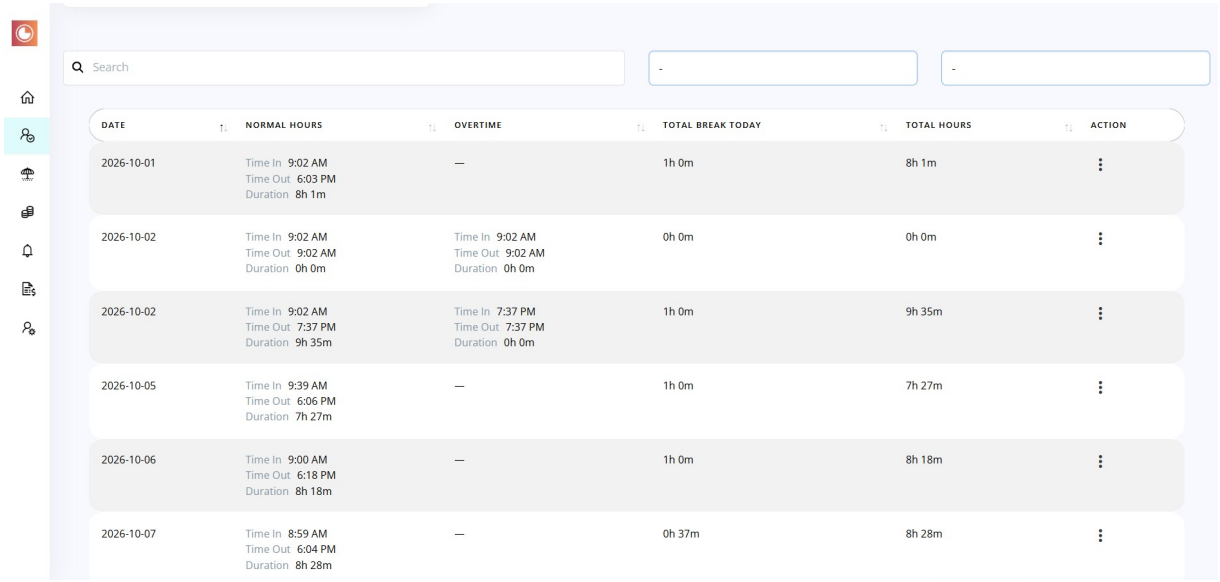

Figure 17A. Attendance history

Add or Edit Attendance

- For a manual entry, click + Add Attendance. To correct an existing record, open its three-dot menu under Action and choose Edit.
- Enter or correct the date, time in, time out, break start and end times, and description. Click Submit.

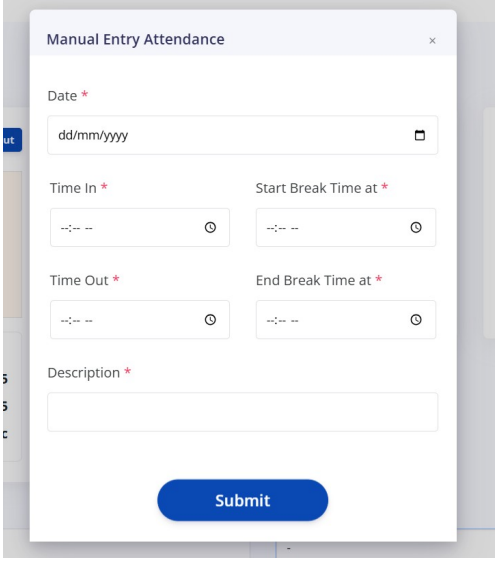

Figure 17B. Manual Entry Attendance form

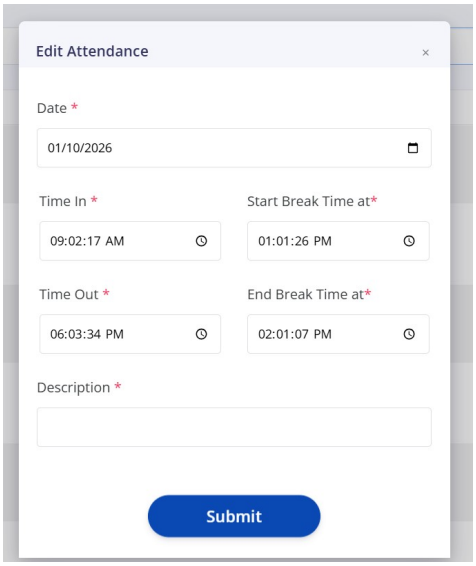

Figure 17C. Edit Attendance form

Delete an Attendance Record

Find the record in the attendance history, open its three-dot menu, and select Delete. Check the date shown in the confirmation. Select Yes to delete the record or Cancel to close the prompt.

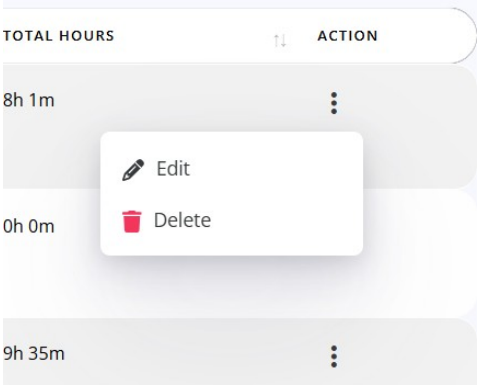

Figure 17D. Attendance record actions

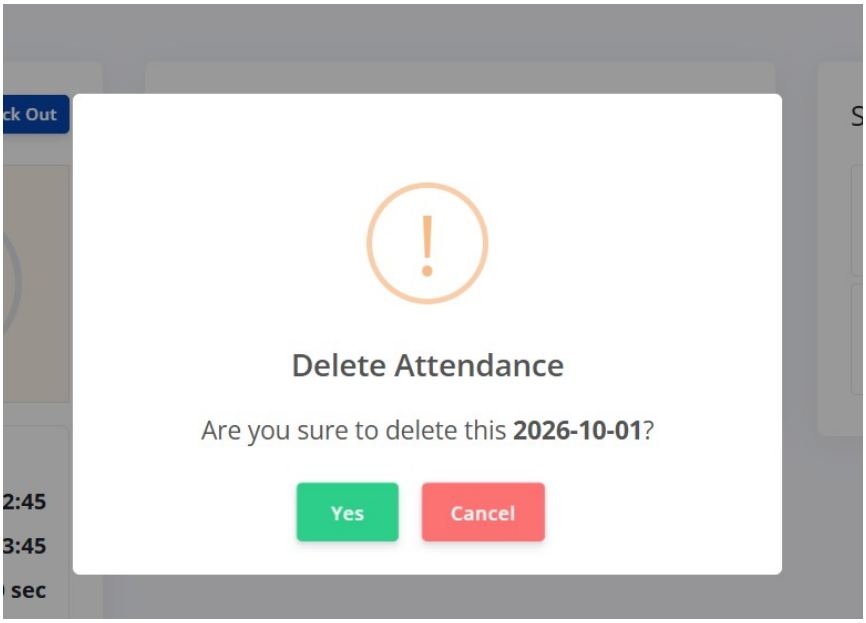

Figure 17E. Delete Attendance confirmation

19. Leaves

Open My Leave to review submitted, pending and approved leave days, and your remaining annual leave balance. Check the Status column for individual requests.

- Click + Apply Leave. Select the Leave Type and enter the From Date and To Date.
- Enter a reason as applicable. To attach a supporting document, click Upload and select a PDF, DOC or DOCX file.
- Click Apply, then return to the leave list to check the request status.

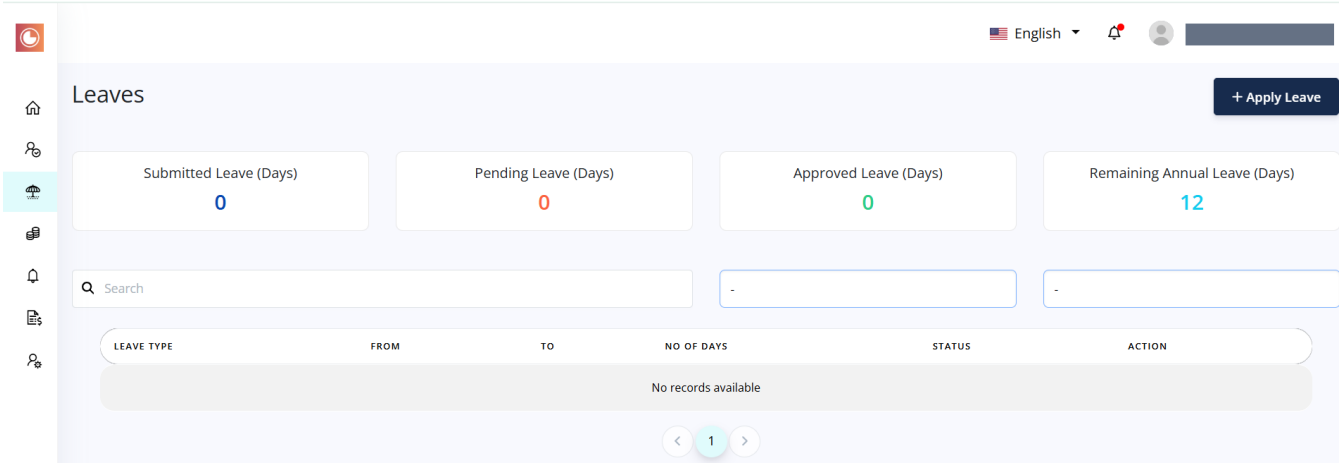

Figure 18. Employee leave list and balances

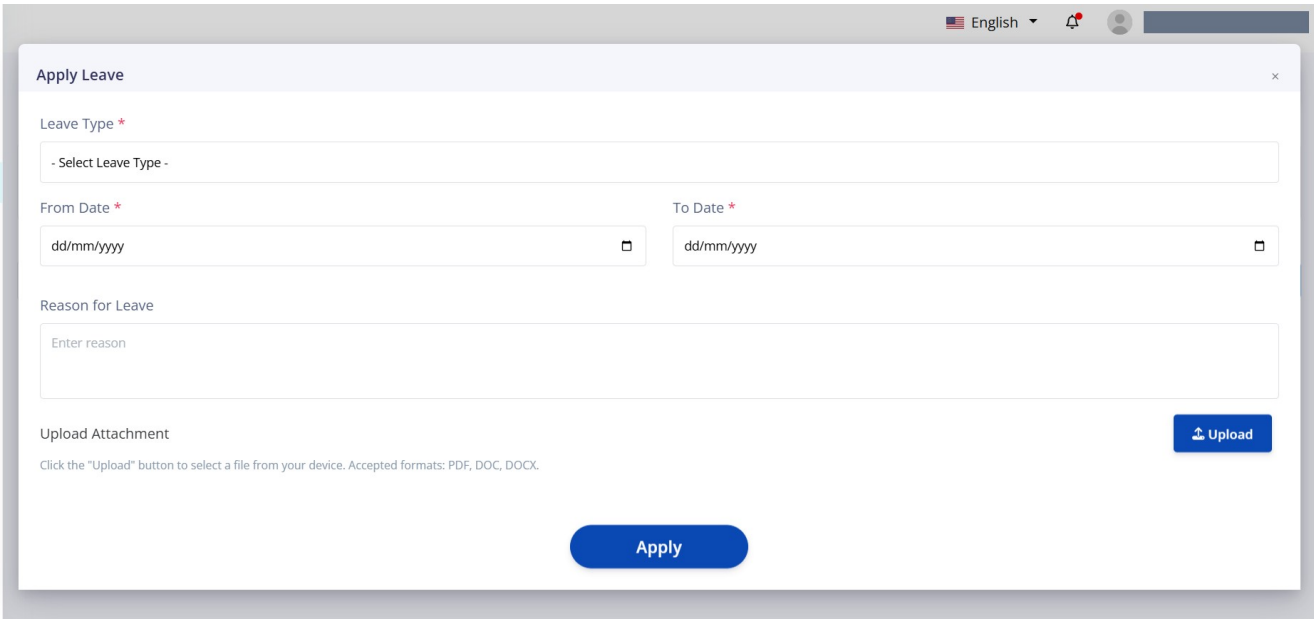

Figure 18A. Apply Leave form

20. Expenses

Open My Expenses to review submitted, pending, approved and rejected totals in RM. Check the Status column for individual claims.

- Click + Apply Expenses. Select an Expense Type, enter the Receipt Date and add a description as applicable.
- Click Upload to attach the required supporting file. The form lists PDF, DOC and DOCX as accepted formats.
- Complete any additional fields shown for your expense type, then click Submit Expense.

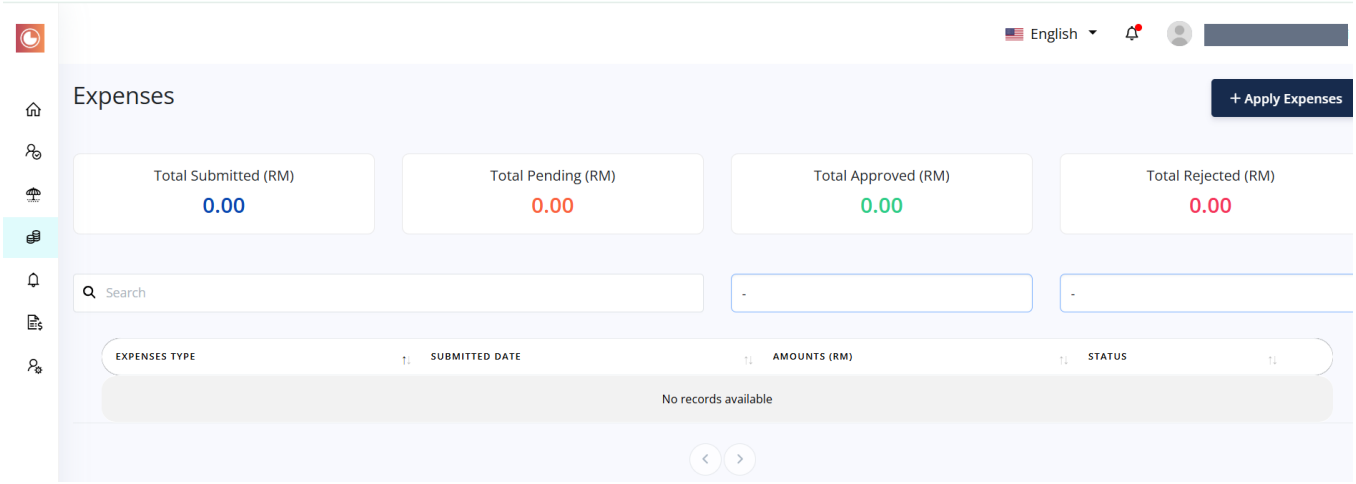

Figure 19. Employee expense list and totals

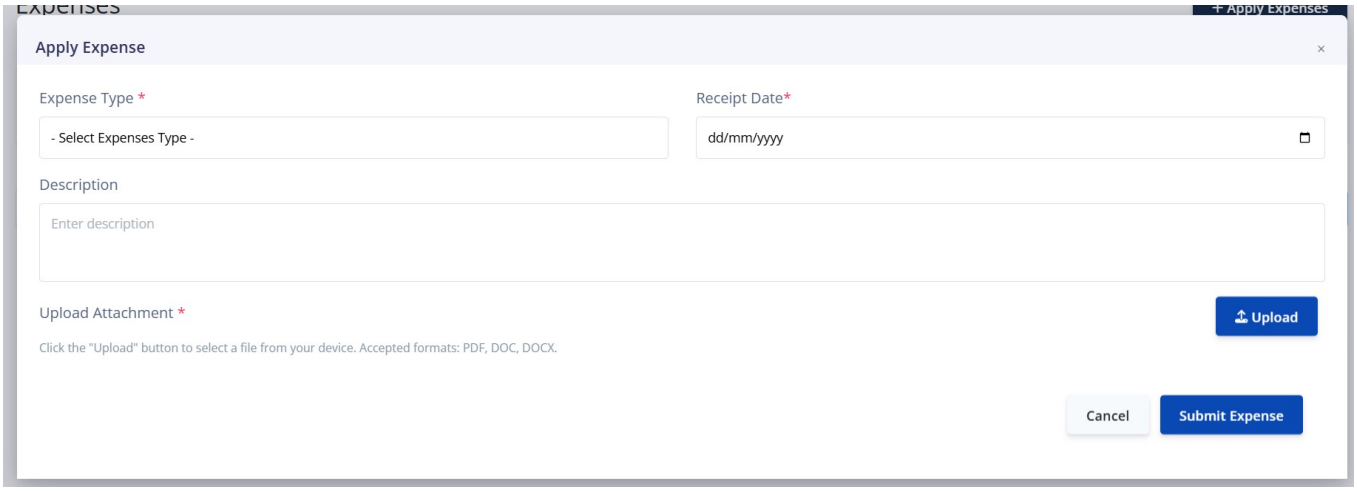

Figure 19A. Apply Expense form

21. Employee Notification

Select My Notification in the sidebar or View all from the notification preview. Use Search and the available filters to find messages.

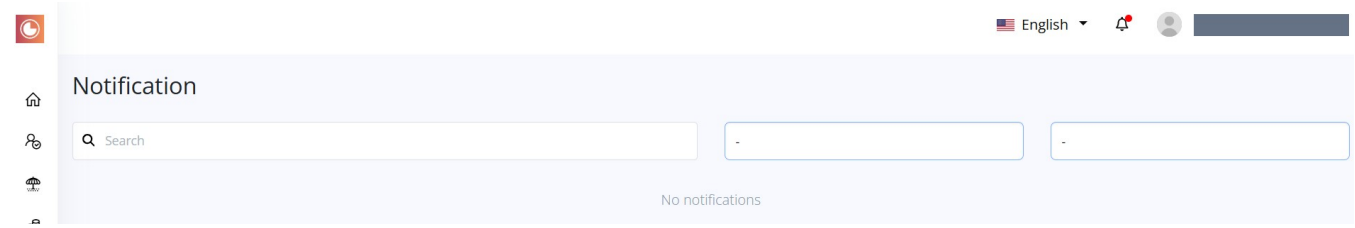

Figure 20. Employee Notification page

22. Employee Payslip

Open My Payslip and use Search or the available filters to find a record. Check Payment Type and Pay Date, then use the Attachment column when a payslip is available.

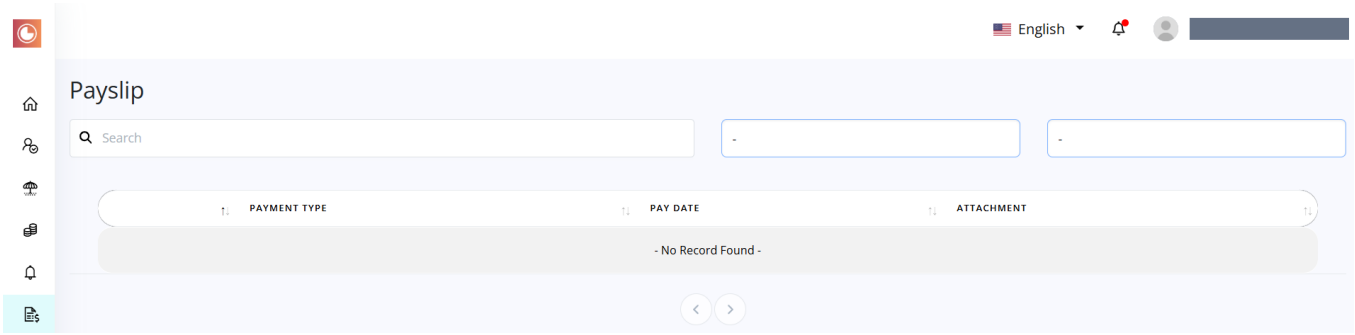

Figure 21. Employee Payslip page

23. Employee Profile

The Employee Profile page contains the user's personal and employment information. The profile includes sections such as Basic Info, Contact Info, Family Info, Education Background, Employment Background, and Document.

- Select the required profile tab to review the related information.
- Review personal and employment details and use available edit options only when changes are permitted.

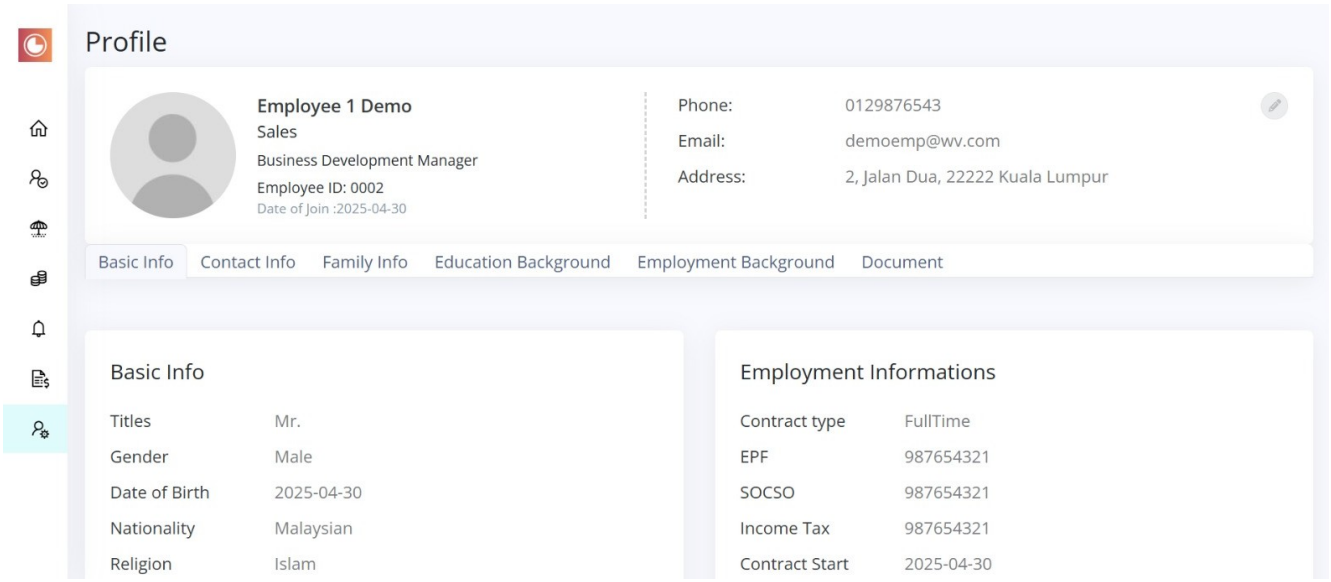

Figure 22. Employee Profile Page

24. Basic Usage Notes & Conclusion

Basic Usage Notes

- Use the left navigation menu to move between WorkVibes modules.
- Use Search and filter fields to narrow lists where these controls are provided.
- Three-dot menus are used on many list pages. Click the menu beside a record to view the available actions, which may include Edit or Delete depending on the module.
- Save or submit changes before leaving a page when a Save or Submit button is provided.
- Check the Leaves and Expenses pages for the latest request status.
- If a function is not available, the user may need the appropriate account permission.

Conclusion

WorkVibes provides a centralized platform for common employee and HR activities. Administrators can manage organizational and employee information, while employees can conveniently access their own attendance, leave, expenses, notifications, payslips, and profile details. This guide provides a simple reference for navigating the main functions shown in the WorkVibes system.

Note: For best results, use the guide together with the access rights and workflow configured by your organization.
