Empowering Your Digital Transformation Journey

Daily work becomes harder when information is scattered

These are common business problems—not IT problems.

Too many paper files

Hard to find

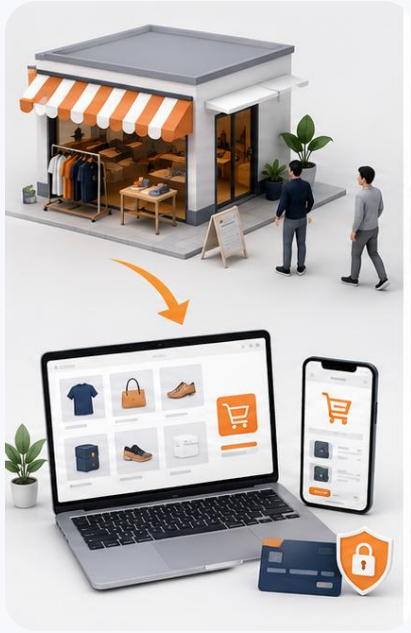

Customer follow-up missed

No clear history

Stock count is unclear

Wrong stock balance

Sales limited to walk-ins

Limited reach

Approvals take too long

Waiting and chasing

When each team keeps its own files, Excel sheets and manual steps, the whole business slows down.

MODULE 01

Document Management

Boxes and filing cabinets → Organised, searchable

THE PAIN POINT

Paper documents are difficult to find, share and protect.

Scan once. Find it anytime.

- ✓ Convert paper into digital files
- ✓ Search by name, date or reference
- ✓ Use AI to find information faster
- ✓ Access securely through the cloud

MODULE 02

CRM System

Notes, files and memory → One clear customer record

THE PAIN POINT

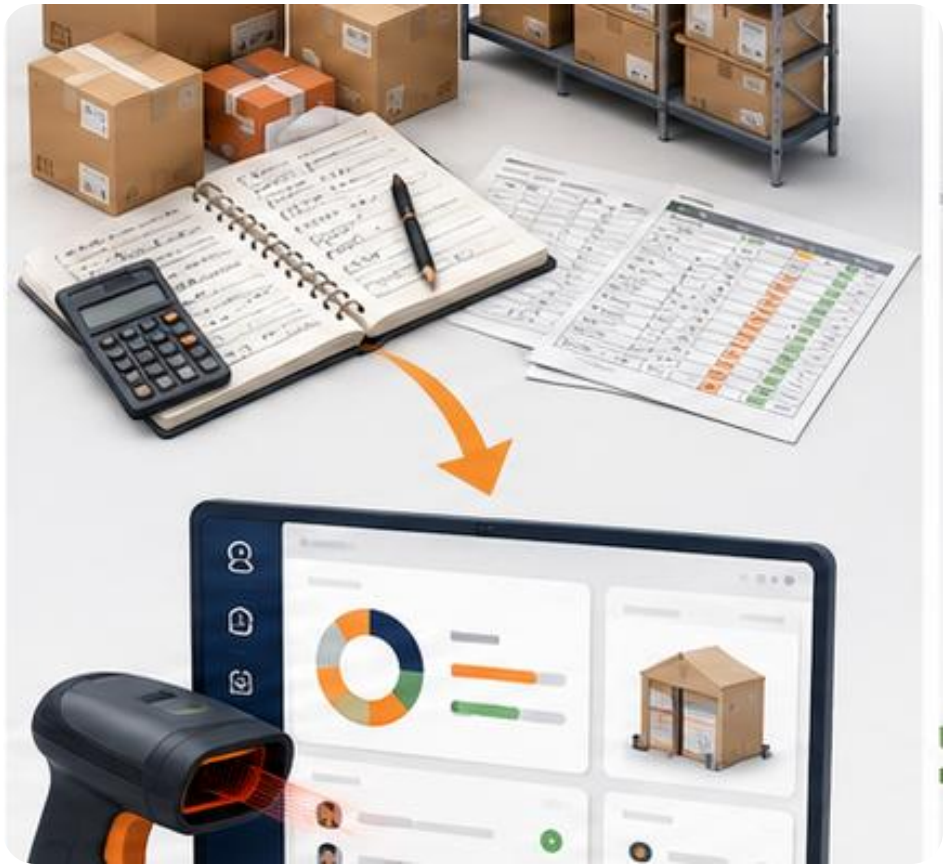

Customer details and follow-ups are spread across files, phones and staff.

Keep every customer story in one place.

- ✓ See customer details and history
- ✓ Track enquiries and sales progress
- ✓ Set reminders for follow-up
- ✓ Give better and faster service

MODULE 03

Inventory System

Manual count and mismatch → Accurate, live stock view

THE PAIN POINT

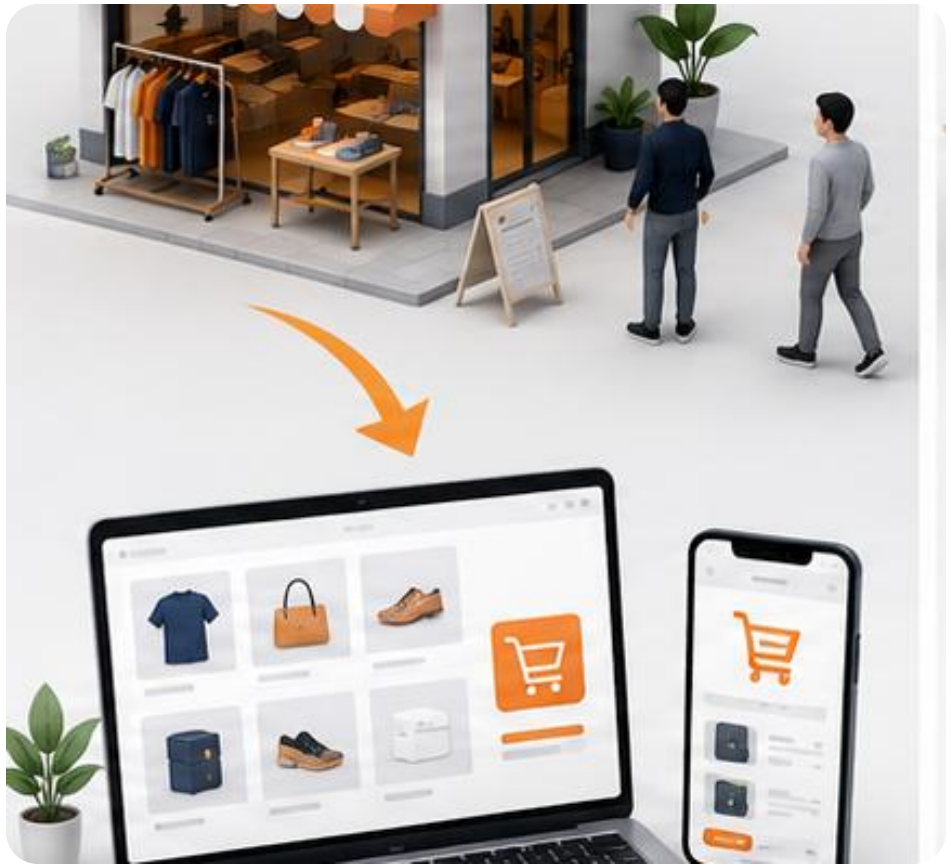

Paper or Excel stock records become outdated and cause costly mistakes.

Know what you have—without guessing.

- ✓ See stock balance clearly
- ✓ Track items coming in and going out
- ✓ Use barcode scanning
- ✓ Receive simple stock reports

MODULE 04

E-Commerce Platform

Walk-in sales only → Online ordering and

THE PAIN POINT

Traditional selling depends on location, opening hours and manual payment collection.

Let customers buy from anywhere.

- ✓ Promote products online
- ✓ Accept orders 24 hours a day
- ✓ Create bills and receipts
- ✓ Connect a secure payment gateway

MODULE 05

Workflow Automation

Chasing people and paper → Faster digital approval

THE PAIN POINT

Staff spend time passing forms, chasing signatures and repeating data entry.

Let routine work move by itself.

- ✓ Use simple digital forms
- ✓ Send approval to the right person
- ✓ Notify staff automatically
- ✓ Keep a clear approval history

One update can support the next step automatically

The modules can work separately—but they create more value when connected.
